DETAILED ACTION

1. Amendment filed on 7/7/03 has been received. Information Disclosure Statement filed on 7/7/03 has been received.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-5 and 8-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Thorn in view of Corcoran et al (U. S. Patent no. 5,257,680).

Thorn discloses:

See figure 6 damping layer 219b, spring portion 219a, intermediate stiffening portion 219, web portion 219c, casing 215, damping means 225, collar with first 222 and second 223 halves, bolt 246, inner member 211, cavities unnumbered but on either side of inner member 211

Regarding claims 2 and 3, see column 6 lines 61-67

Thorn does not disclose a resilient member with an internal lubricant. Corcoran et al discloses a similar device (see figure 12) that may use an internal lubricant such as Teflon to control the damping (see column 3 lines 53-63). Teflon produces a dry slippery film. It would have been obvious to one of ordinary skill in the art at the time the invention was made to use an internal lubricant such as Teflon as taught by Corcoran et al in the device of Thorn in order to control the damping force producing better response.

Regarding claim 4, carbon black is well known as a filler and reinforcing material

Regarding claim 5, the use of sulfur as a curing agent is well known.

4. Claims 6,7,17, and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
